■ Mahindra Sales Animated Dashboard (Dark Theme)

■ Import Dataset:
Go to Home > Get Data > CSV. Import the Mahindra car sales data.

■ Data Prep:
Ensure 'Sale Date' is Date type. Create 'Month' column using:
Month = FORMAT([Sale Date], "MMM YYYY")

■ Visuals to Add:
• Clustered Bar Chart → Cars Sold by Model
• Donut Chart → Engine Type Distribution
• Line Chart → Monthly Sales (Animated)
• KPI Cards → Total Sales, Avg Price, Highest Price
• Map / Bar → Dealer-wise Sales

■ Add Animation:
1. Visuals > Get More Visuals
2. Search and import 'Play Axis'
3. Drag 'Month' into it and link to time-based charts
4. Enable auto-play and control speed

■ Creative Touch:
• Dark background + white text
• Add Mahindra logo top-left
• Use Play Axis for timeline animation
• Add narrative insight box or tooltip

■ Export Options:
• File > Export > PDF (static)
• Publish to Power BI Service > Record screen (for animated MP4)
